History and description of the remains

In 1888, human remains representing, at minimum, two individuals were recovered from site 3RA387 in Randolph County, AR. The human remains were discovered during a salvage operation of site 3RA387 as part of the re-routing of Highway 304. Excavations were undertaken by the Arkansas State Highway and Transportation Department. Currently, the remains are being stored at the Arkansas Archeological Survey's curation facility. The gender and age of the human remains were undetermined. No known individuals were identified. No associated funerary objects are present. No diagnostic artifacts were found at site 3RA387 to indicate when these human remains were buried. The cultural and temporal identity of these human remains is difficult to discern and they cannot be clearly culturally affiliated with an Indian tribe.

Determinations made by the Arkansas State Highway and Transportation Department

Officials of the Arkansas State Highway and Transportation Department have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced

between the Native American human remains and any present-day Indian tribe.

- Treaties, Acts of Congress, or Executive Orders, indicate that the land from which the Native American human remains were removed is the aboriginal land of The Osage Nation (previously listed as the Osage Tribe).
- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains may be to The Osage Nation (previously listed as the Osage Tribe).
